

MSc Sustainable Luxury & Brand Management

The **MSc Sustainable Luxury & Brand Management** prepares the next generation of luxury professionals by equipping them with the skills to combine excellence, innovation, and sustainability. In a rapidly evolving industry, this program provides a deep understanding of the environmental, social, and ethical challenges shaping the future of luxury, while building strong expertise in luxury marketing, communication, and brand management.

Through a curriculum that combines strategy, creativity, and customer experience, students develop a comprehensive understanding of the luxury industry. They learn how to design sustainable brand strategies, lead innovative projects, and meet the expectations of increasingly conscious consumers who value transparency, authenticity, and responsibility.

Study in **Lyon**, on our historic city-centre campus, and benefit from a **100% English-taught** learning experience.

PRESENTATION

The **MSc-Master of Science Sustainable Luxury & Brand Management** prepares future luxury professionals to address the challenges of a rapidly transforming industry. It combines the fundamentals of luxury brand management with sustainability, innovation, and responsibility issues, enabling students to meet the evolving expectations of consumers and companies.

Fully taught in English, this program provides an international perspective on the luxury industry. Students develop expertise in brand strategy, marketing, communication, and customer experience, while integrating the environmental, social, and ethical dimensions of sustainable luxury.

The program covers a wide range of strategic and operational skills:

- Luxury brand strategy and management
- Luxury marketing and communication
- Sustainability and corporate responsibility
- Customer experience and omnichannel journeys
- Innovation and transformation in the luxury sector
- Responsible supply chain management
- Digitalization and emerging luxury trends
- Project management and international development

The program is awarded the [**MSc label from the Conférence des Grandes Écoles.**](#)

The programs are open to applicants with a **B2 level of English** and are offered in three formats, providing flexibility adapted to different profiles:

- **Bac+4 entry level:** a 2-year program accessible after completing a Bachelor's degree (Bac+3) or obtaining at least 180 ECTS credits.
- **Bac+5 entry level:** a 1-year program accessible after completing a 4-year degree (Bac+4) or obtaining at least 240 ECTS credits.
- **Bac+5 entry level with professional experience:** a 1-year program accessible after completing a Bachelor's degree (Bac+3) or obtaining at least 180 ECTS credits, combined with at least 3 years of significant professional experience (ideal for career changers or professionals seeking career development) through the VAPP procedure.

- Development of specialized expertise in a strategic field
- Alignment of taught skills with companies' expectations
- Building a coherent and distinctive career plan
- Strengthening employability and access to leadership positions in evolving sectors

MSC - MASTER OF SCIENCE IN 1 YEAR

The **one-year Master of Science (MSc)** starts in **mid-September** and aims to provide students with advanced expertise and operational skills in their chosen field of specialization.

Designed in collaboration with **academic experts and industry professionals**, the program addresses the current needs of organizations and develops the skills required to tackle economic, societal, and environmental challenges.

Accredited according to the certification criteria of the **Conférence des Grandes Écoles**, this program offers a demanding learning experience combining **academic excellence, professional expertise, and practical application**.

The **12-month program**, fully taught in English, combines academic courses, applied projects, and a **4-month professional internship**, enabling students to develop both strong theoretical knowledge and hands-on experience.

The curriculum is structured around **five teaching blocks**, allowing students to progressively develop their skills:

- Develop and implement an innovative and responsible strategic vision in a changing environment
- Drive and evaluate sustainable performance
- Promote ethical management and foster the development of individual and collective capabilities
- Lead the design and performance of value creation models in the luxury industry within uncertain and rapidly evolving environments
- Demonstrate critical thinking

Throughout the program, students benefit from **interactive teaching methods**, including case studies, workshops, and hands-on projects. Field experiences and applied projects also strengthen

their immersion in the professional world.

Upon completion of the program, graduates acquire the skills needed to thrive in demanding international environments and contribute to the sustainable transformation of organizations.

MSC - MASTER OF SCIENCE IN 2 YEARS

Year 1 - Building strong foundations in management and strategy

During the first year, students acquire a solid foundation in general management and strategic thinking, essential for making informed decisions in complex and constantly evolving environments.

The objective is to train future managers and decision-makers with a responsible, analytical, and international mindset. This first year provides the intellectual and methodological foundations needed to succeed in advanced MSc specialization programs.

A **professional internship or consulting project** completes the first year.

Year 2 - MSc specialization with applied expertise

Our MSc programs are structured around **five teaching blocks**, spread over 12 months and representing approximately **460 hours of in-person classes**.

Courses are delivered by experienced faculty members and industry professionals, using **innovative teaching methods** and real-world case studies.

Key learning areas

- Develop and implement an innovative and responsible strategic vision in a changing environment
- Drive and evaluate sustainable performance
- Promote ethical management and foster the development of individual and collective capabilities
- Lead the design and performance of value creation models in the luxury industry within uncertain and rapidly evolving environments
- Demonstrate critical thinking

A **minimum 4-month professional internship** completes the second year.
